

# Substance Drug Checking

We provide free and confidential drug checking services. We are able to identify:

- The main drug and the presence of unexpected drugs
- Cutting and bulking agents
- The concentration of the different components

We take a small sample of your drug and use multiple technologies to get you the best information we can about the drugs you have.

You can find us at:

**1802 Cook Street  
Victoria, BC**

**Monday - Friday, 12-7 PM**

Feel free to call or text 250-415-7637,  
or email [substance@uvic.ca](mailto:substance@uvic.ca) if you  
have any questions!
