Albany Feb. 23<sup>rd</sup> 1828.

Dear Sir

I must beg of you to have deposited to my credit in the Bank of Geneva two hundred dollars on our wheat acct. Mr. Clark I presume informed you on the day I left Waterloo that I was willing to close with the then price say six shillings - I am apprehensive I was a little too hasty as I have learnt there is but little wheat at the south & comparatively none coming in here - There is but little doing of importance in the Legislature - the whole afternoon has been spent on the bill for the payt. to the minor children of Mr. Clinton his salary as Canal Comm<sup>r</sup> without coming to any final result - P. B. Porter proposed an amendment to the act as reported by the Committee which led to

a warm & long discussion - the Speaker opposed the bill in  
two speeches of considerable length - in which he attempted to  
excite the political feeling of the house - I am however of opinion  
that he has done the cause he opposed more good than harm -  
You will have the goodness to inform me when the deposit is  
made that I may draw for it thro' one of the banks here -

Remain Dear faithfully Yr. friend  
A. Glover.

To Mr. R. P. Hunt -
