

Now, therefore, the Board hereby grants to the Grantee the privilege of establishing a foreign-trade zone, designated on the records of the Board as Foreign-Trade Zone No. 284, as described in the application, and subject to the FTZ Act and the Board's regulations, including Section 400.13, to the Board's standard 2,000-acre activation limit for the overall general-purpose zone, and to an ASF sunset provision for magnet sites that would terminate authority for Site 1 if not activated within five years from the date of approval.

Signed at Washington, DC, this 4th day of December 2012.

Rebecca Blank,

Acting Secretary of Commerce, Chairman and Executive Officer, Foreign-Trade Zones Board.

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-91-2012]

Foreign-Trade Zone 22—Chicago, IL, Notification of Proposed Production Activity, Abbott Laboratories, Inc., AbbVie, Inc. (Pharmaceutical Production), North Chicago, IL, Area

Abbott Laboratories, Inc. (Abbott) and AbbVie, Inc. (AbbVie) submitted a notification for expanded production authority within Subzones 22F and 22S, at sites located in the North Chicago and Lake County, Illinois, area. The facilities are used for the production of a wide variety of pharmaceutical and diagnostic products, medical devices and equipment. The notification conforming to the requirements of the regulations of the Board (15 CFR 400.22) was received on December 14, 2012.

Subzone 22F was approved by the Board in 1992 (Board Order 611, 12/14/1991, 57 FR 61045, 12/14/1992) and authority was later expanded in 1999 and 2009 (Board Order 1051, 8/30/1999, 64 FR 48578, 9/7/1999 and Board Order 1654, 12/18/2009, 75 FR 340-341, 1/5/2010). A minor boundary modification under 15 CFR 400.38 of the Board's regulations was approved, effective August 1, 2012, transferring two sites from SZ 22F at the Abbott facilities to AbbVie, now designated as Subzone 22S (S-66-2012).

Abbott and Abbvie are now requesting authority to use production inputs sourced from abroad that include:

Peptones and their derivatives; other protein substances and their derivatives; and heterocyclic compounds, aromatic compounds, sulfanomides, and catalysts used in discovery, research and development (duty rates range from 3.7% to 6.5%).

Production under FTZ procedures could exempt Abbott/AbbVie from customs duty payments on the foreign status inputs used in export production for the additional activity proposed. On its domestic sales, for the foreign status inputs noted above, Abbott/AbbVie would be able to choose the duty rates during customs entry procedures that apply to the following additional pharmaceutical products that include active ingredients, placebo, and protein used in research and development: Placebo products intended for clinical trials; radioactive elements and isotopes and compounds other than those of subheadings 2844.10, 2844.20, and 2844.30; alloys; dispersions (including cermets); ceramic products and mixtures containing these elements; isotopes or compounds; radioactive residues; elements, isotopes and compounds with cobalt-60 radioactivity only; and other elements, isotopes and compounds: Americium-241, californium-252, curium-244, cesium-137, gadolinium-153, iridium-192, promethium-147, radium-266, selenium-75, or ytterbium-169; peptones and their derivatives (duty free-6.4%). Customs duties also could possibly be deferred or reduced on foreign status production equipment.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 30, 2013.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz. For further information, contact Diane Finver at Diane.Finver@trade.gov (202) 482-1367.

Dated: December 14, 2012.

Executive Secretary.

BILLING CODE P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Advisory Committee on Earthquake Hazards Reduction Meeting

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: The Advisory Committee on Earthquake Hazards Reduction (ACEHR or Committee), will hold an open meeting via teleconference on Thursday, January 10, 2013 from 1:00 p.m. to 3:00 p.m. Eastern Time. The primary purpose of this meeting is to review the Committee's draft letter report to the NIST Director. Any draft meeting materials will be posted prior to the meeting on the National Earthquake Hazards Reduction Program (NEHRP) Web site at <http://nehrp.gov/>. Interested members of the public will be able to participate in the meeting from remote locations by calling into a central phone number.

DATES: The ACEHR will hold a meeting via teleconference on Thursday, January 10, 2013, from 1:00 p.m. until 3:00 p.m. Eastern Time. The meeting will be open to the public.

ADDRESSES: Questions regarding the meeting should be sent to NEHRP Director, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 8604, Gaithersburg, Maryland 20899-8604. For instructions on how to participate in the meeting, please see the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: Dr. Jack Hayes, National Earthquake Hazards Reduction Program Director, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 8604, Gaithersburg, Maryland 20899-8604. Dr. Hayes' email address is jack.hayes@nist.gov and his phone number is (301) 975-5640.

SUPPLEMENTARY INFORMATION: The Committee was established in accordance with the requirements of Section 103 of the NEHRP Reauthorization Act of 2004 (Pub. L. 108-360). The Committee is composed of 14 members appointed by the Director of NIST, who were selected for their technical expertise and experience, established records of distinguished professional service, and their knowledge of issues affecting the National Earthquake Hazards Reduction Program. In addition, the Chairperson of the U.S. Geological Survey (USGS) Scientific Earthquake Studies Advisory

Committee (SESAC) serves in an ex-officio capacity on the Committee. The Committee assesses:

- Trends and developments in the science and engineering of earthquake hazards reduction;
- The effectiveness of NEHRP in performing its statutory activities;
- Any need to revise NEHRP; and
- The management, coordination, implementation, and activities of NEHRP.

Background information on NEHRP and the Advisory Committee is available at <http://nehrrp.gov/>.

Pursuant to the Federal Advisory Committee Act, as amended, 5 U.S.C. App., notice is hereby given that the ACEHR will hold an open meeting via teleconference on Thursday, January 10, 2013, from 1:00 p.m. until 3:00 p.m. Eastern Time. There will be no central meeting location. Interested members of the public will be able to participate in the meeting from remote locations by calling into a central phone number. The primary purpose of this meeting is to review the Committee's draft letter report to the NIST Director. Any draft meeting materials will be posted prior to the meeting on the NEHRP Web site at <http://nehrrp.gov/>.

Individuals and representatives of organizations who would like to offer comments and suggestions related to the Committee's affairs are invited to request detailed instructions on how to dial in from a remote location to participate in the meeting by contacting Michelle Harman. Michelle Harman's email address is michelle.harman@nist.gov, and her phone number is 301-975-5324. Approximately 15 minutes will be reserved from 2:45 p.m.–3:00 p.m. Eastern Time for public comments; speaking times will be assigned on a first-come, first-serve basis. The amount of time per speaker will be determined by the number of requests received, but is likely to be about three minutes each. Questions from the public will not be considered during this period. Speakers who wish to expand upon their oral statements, those who had wished to speak but could not be accommodated, and those who were unable to participate are invited to submit written statements to the ACEHR, NIST, 100 Bureau Drive, MS 8604, Gaithersburg, Maryland 20899-8604, via fax at (301) 975-4032, or electronically by email to info@nehrrp.gov.

All participants of the meeting are required to pre-register. Anyone wishing to participate must register by 5:00 p.m. Eastern Time, Monday, January 7, 2013, in order to be included. Please submit your full name, email address, and

phone number to Michelle Harman. After registering, participants will be provided with detailed instructions on how to dial in from a remote location in order to participate. Michelle Harman's email address is michelle.harman@nist.gov, and her phone number is (301) 975-5324.

Dated: December 17, 2012.

Willie E. May,
Associate Director for Laboratory Programs.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 06048-XC401

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of final determination and discussion of underlying biological analysis.

SUMMARY: NMFS has evaluated the joint resource management plan (RMP), represented by five Hatchery and Genetic Management Plans (HGMPs), submitted by the Lower Elwha Klallam Tribe and the Washington Department of Fish and Wildlife to NMFS pursuant to the limitation on take prohibitions for actions conducted under Limit 6 of the ESA 4(d) Rule for salmon and steelhead promulgated under the Endangered Species Act (ESA). The plans specify the propagation of five species of salmon and steelhead in the Elwha River of Washington state. This document serves to notify the public that NMFS, by delegated authority from the Secretary of Commerce, has determined pursuant to Limit 6 of the 4(d) rule for salmon and steelhead that implementing and enforcing the RMP will not appreciably reduce the likelihood of survival and recovery of the Puget Sound Chinook salmon and Puget Sound steelhead.

DATES: The final determination on the take limit was made on December 10, 2012.

ADDRESSES: Written responses to the determination should be sent to the Salmon Management Division, 1201 NE Lloyd Boulevard, Suite 1100, Portland, OR 97232.

FOR FURTHER INFORMATION CONTACT: Tim Tynan at (360) 753-9579 or email: tim.tynan@noaa.gov.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

Chinook salmon (*Oncorhynchus tshawytscha*): Threatened, Puget Sound, naturally produced and artificially propagated.

Steelhead (*O. mykiss*): Threatened, Puget Sound, naturally produced and artificially propagated.

Background

The plans describe hatchery operations intended to protect five species of salmon and steelhead (two of them ESA-listed) during the removal of two dams on the Elwha River, and subsequent propagation intended to enhance the rebuilding of those salmonids species. Four of the plans are submitted by the Lower Elwha Klallam Tribe, and one by the Washington Department of Fish and Wildlife (WDFW); the plans were developed jointly by the Tribe and the WDFW. NMFS has determined that implementing and enforcing the RMP will not appreciably reduce the likelihood of survival and recovery of ESA-listed Puget Sound Chinook salmon or Puget Sound steelhead.

As required by § 223.203(b)(6) of the ESA 4(d) rule, NMFS must determine pursuant to 50 CFR 223.209 and pursuant to the government-to-government processes therein whether the RMP for Elwha River basin hatcheries would appreciably reduce the likelihood of survival and recovery of the Puget Sound Chinook Salmon ESU or Puget Sound Steelhead DPS. NMFS must take comments on how the RMP addresses the criteria in § 223.203(b)(5) in making that determination.

Discussion of the Biological Analysis Underlying the Determination

The proposed hatchery activities described in the RMP are intended to conserve salmon and steelhead populations in the Elwha River basin during operations to remove two dams on the Elwha River, and for a period of time after the dams have been removed, as the environment improves. The RMP provides the framework through which the Tribal and the State of Washington can jointly manage Elwha River salmon and steelhead hatchery, monitoring, and evaluation activities while meeting requirements specified under the ESA. The proposed action covers continued operation of the five hatchery programs over the initial phases of fish restoration in the Elwha River—the preservation and recolonization phases—with transitions between phases gauged by
